## MRANN Rule Book Change Request Form

*One Form Per Request Please*

Proposed Date: 10 / 02 / 18

Proposed by:

### Proposed New Rule:

Revision of wording in Section 1. GENERAL RULES sub-section d:

d. All motorcycles that do not meet both a 17" or larger rear wheel and a 20" or larger front wheel as designated by the labeled tire size will be limited to gasoline.

### Purpose of New Rule:

To remove the restriction and to allow electric bikes (i.e. Altas) to participate in MRANN races. This rule still restricts pee-wee's and mini's to gasoline powered motorcycles.

### Affected Sections of Rule Book:

Section 1. GENERAL RULES sub-section d.

Proposed changes must include the section of the rulebook to which they pertain, and the affect it will have on other rules relative to such change if approved.

## MRANN Rule Book Change Request Form

*One Form Per Request Please*

Proposed Date: 10 / 02 / 18

Proposed by: Chanel Egesdahl

### Proposed New Rule:

o. Numbering System: Riders may run the number earned from the previous season. Overall top twenty numbers will also be reserved for the current race year. Riders have until the Wednesday following the first race of the year to claim the number earned from the previous season. After that date, race numbers 1-10 from each division and overall top twenty shall be reserved for those who earned them, all other numbers will be forfeited. Race numbers are assigned on a first come first serve basis.

### Purpose of New Rule:

To prevent VP from having to reserve 60+ numbers in classes with high participation. From my experience most people don't run their earned numbers unless they are within the top 10 earned numbers. This also releases earned numbers that are not claimed by racers who run a different race number.

### Affected Sections of Rule Book:

Section 2. Division Classifications - Sub-Section o. Numbering System

Proposed changes must include the section of the rulebook to which they pertain, and the affect it will have on other rules relative to such change if approved.

## MRANN Rule Book Change Request Form

*One Form Per Request Please*

Proposed Date: 10 / 02 / 18

Proposed by: Dan Rankin

### Proposed New Rule:

Addition of Section 8. PROTESTS sub-section:

h. Any protest filed with the MRANN board becomes invalid when posted on social media prior to Competition Sub-Committee decision.

### Purpose of New Rule:

To prevent false information from circulating and varying decisions prior to the meeting where all evidence and facts are presented for decision.

### Affected Sections of Rule Book:

Section 8. PROTESTS

Proposed changes must include the section of the rulebook to which they pertain, and the affect it will have on other rules relative to such change if approved.

## MRANN Rule Book Change Request Form

*One Form Per Request Please*

Proposed Date: 10 / 02 / 18

Proposed by: Chanel Egesdahl

### Proposed New Rule:

Edit of:

e. BIG BIKE Start Order:

Experts will start on the first banner, amateurs on second, and novice on third. Promoting club may have additional starts, but not less than three (3).

PEE-WEE Start Order:

7 & Older

65 Novice

4-Stroke

6 & Under

MINI/SATURDAY WOMEN Start Order:

Expert 100, Expert Women

Amateur 100, Amateur Women, and Expert 65

Novice 100, Novice Women, and Amateur 65

It is up to the promoting club's discretion where the vintage/bomber line will start and if they would like to separate the Women's starts from the Mini starts. Mini and Women Starts must have a minimum of (3) starts (Expert, Amateur, Novice).

### Purpose of New Rule:

There is no specified starting order for the pee-wee class. This will provide clarification for the promoting clubs at future races in regards to the starting order for all three races.

### Affected Sections of Rule Book:

Section 13. STARTS AND FLAGS sub-section e.

Proposed changes must include the section of the rulebook to which they pertain, and the affect it will have on other rules relative to such change if approved.

## MRANN Rule Book Change Request Form

*One Form Per Request Please*

Proposed Date: 10 / 02 / 18

Proposed by:

### Proposed New Rule:

Addition of:

f. VINTAGE/BOMBER DIVISION: This division is open to any rider racing bikes from the year 1984 and older. This class will be designated with the letter "B" following their number. Riders may ride motorcycles of any displacement or stroke. There will be (1) class in this division (no Novice, Amateur, or Expert). This class will run white backgrounds with black numbers.

### Purpose of New Rule:

There currently is no division classification in the rule book for the Vintage/Bomber class and one needs to be added.

### Affected Sections of Rule Book:

Section 2. Division Classifications subsection f.

Proposed changes must include the section of the rulebook to which they pertain, and the affect it will have on other rules relative to such change if approved.

**Mini Bike Referee- (Beth Legenbauer)** – Points updated. All the bumps are done for the year. Unless I get a request from someone who wants to be bumped before the end of the season.

## **Land Use Committee/Medical Team Report: (Dave Zotter)**

Medical Team: All is good. Med team will be out at GoldDiggers.

Land use: National: Senate Energy + Natural Resources Committee held 32 hearings on public land bills. This is the precursor to putting together public land bills. NOHVCC had their National Conference in August. They are continuing their commitment in assisting and building sustainable OHV trails.

Dave went to the NOHVCC Special Use Permit workshop last month. It was a very productive meeting. Our goals to bring to the BLM will be:

- Consistency – consistency with fees, permit deadlines, etc.
- Singular place to apply for permit ONLINE – this will enable access to check status, establish an “Approve by” date. If permit not reviewed in 45 days, it is automatically approved.

Other race organizations have a course marshal called “Independent Monitor” who reviews the course before the race. If we can show consistency with our races with the use of an Independent Monitor, then we can expect the same from BLM.

### **Races:**

- GoldDiggers – Permit good to go for Winnemucca Mountain. **ABSOLUTELY NO CAMP FIRES!!** We will be on the other side of the mountain, not the MX track. Out through the dunes. There will be dust, silt, badger holes, and valleys full of tumble weeds. Flyer will be up next week. Access is easy – it’s right off the highway 95. We will have electronic scoring with Jeff Miller. There should be service for the square reader. Sunday: 34 miles, 3 loops. Saturday: 23 miles, 3 loops, no dunes. No team race. Ambulance on site. Sweeps welcome, but we are ok.
- MVDS – Permit in hand. The race will be held at the Lovelock Speedway
- Rimbenders – Race to be at Moonrocks

**Vice President- (Chanel Egesdahl)** – We had some guys show up late to Corey Herring, wanting to race Amateur/Expert. They had already missed the Novice race. But they were not MRANN members, therefore I could not let them sign up as Experts. This put me in a difficult situation of turning them around at the gate.

**Treasurer's Report- (Anita Honea)**- Funds as of last week:

There should be service for the square reader. Sunday: 34 miles, 3 loops. Saturday: 23 miles, 3 loops, no dunes. No team race. Ambulance on site. Sweeps welcome, but we are ok.

### **NEW BUSINESS:**

**Rimbenders:** Formally request \$2000 from MRANN Land Use fund for the Moonrocks race. BLM is charging \$6500.

**VOTE: Unanimous PASS – Approved.**

**Vice Pres:** Proposed REF shirts. Makes it easier for people to find the referees for questions. Not everyone knows who Ronnie or Beth are.

**Course Marshal** - Still discussing the use of a Course Marshal to inspect the course before each race. Who? How? When? Should be a board member? Should have expenses paid/compensated.

**Lassen** – Lassen MC Lost a 30yr member to cancer. So sorry for your loss.

Last month's meeting minutes are posted.

**Big Bike Referee- (Ronnie Scorserelli)** – Points will be updated by next week.

**Mini Bike Referee- (Beth Legenbauer)** – Points will be updated by next week.

**Land Use Committee/Medical Team Report: (Dave Zotter)**

Medical Team: All is good. Med team will be out at Corey Herring. Ingrams donated a case for the Spot.

Corey Herring Memorial Scholarship: \$4200 given out in scholarships. 9 applicants, 4 awarded. That's 3 times more than last year. All the recipients sent in "Thank Yous"

Land use:

1. California Off Road Recreation and Conservation Act.
2. There is a proposed bill floating around in Washoe County. It's called the Washoe County Economic Development and Conservation Act. You can read about it here: [https://www.washoecounty.us/csd/planning\\_and\\_development/conservation-act.php](https://www.washoecounty.us/csd/planning_and_development/conservation-act.php)

In summary, this bill proposes selling off BLM land to developers for future housing development. They have proposed a "disposal boundary" where the land will be sold. This boundary includes a lot of our riding areas like Moon Rocks, Dog Skin Mountain, Chickadee, and much more. This is not a bill the public can vote on. It will be decided by our 5 county commissioners. So, if we want to keep our "Public Lands in Public Hands", please write, call, email, visit, etc. your county commissioner and tell them how you feel. Feel free to ask Julianne Zotter about this, she has done a lot of research and is actively trying to get this bill shut down. Also, remember to do some research and VOTE in the upcoming local elections!

3. House Natural Resource Committee approved H.R. 857- legislation designates 6 BLM off-highway as congressionally designated OHV recreation areas. This means future administrations will not be able to eliminate OHV usage by re-writing a management plan.

#### **Races:**

- Corey Herring Memorial Club – Honeylake is good to go. We had pit riding issues last year, so there will be strict enforcement this year. Plenty of water, no dust on the MX track. Going to try to start earlier to beat the heat. There will be no team race. Sunday race will be in the order of Novice, Amateur, Expert. 4H will be at the race to cook breakfast and lunch on both Saturday and Sunday. 1 mile Pee Wee race, 3 mile Mini race, 4.8 mile Sunday race. Bring old gear for a gear swap!

#### **NEW BUSINESS:**

Rimbenders – 1  
Cheaters M/C- 0  
Lassen M/C- 1  
Corey Herring Memorial M/C- 2  
MVDS- 1  
Gold Diggers M/C- 0  
WSRA- 2

**President- (Dan Rankin)** – Let's remember to keep dogs on leashes during races. It is starting to become an issue. Please keep dangerous dogs inside a trailer or leave them home. We don't want to have to create a rule about this, and we don't want to exclude dog owners.

**Vice President- (Chanel Egesdahl)** – Nothing new to report.

**Treasurer's Report- (Anita Honea)**- Funds as of last week:

General : \$13,047.43

Corey Herring Scholarship : \$14,541.16

Land Use : \$26,659.00

We finally figured out the Morgan Stanley (CHM Scholarship) account. Nothing has been deposited or withdrawn. All scholarships have been paid with an account that Anita has set aside.

Also, the Team Race is charged full MRANN fees (\$10/team).

**Secretary Report- (Julianne Zotter)**

Last month's meeting minutes are posted.

**Big Bike Referee- (Ronnie Scorserelli)** – I have made some corrections to points and standings. And a few guys got bumped.

**Mini Bike Referee- (Beth Legenbauer)** – Points will be updated by next week.

### **Land Use Committee/Medical Team Report: (Dave Zotter)**

Medical Team: Cheaters had two helicopter extractions on Sunday. Even with these significant injuries, all medical protocol went well and as planned. We will have to start charging for medical supplies reimbursement. But we need to some accounting first.

Corey Herring Memorial Scholarship: \$4200 given out in scholarships. 9 applicants, 4 awarded. That's 3 times more than last year.

#### **Land use:**

1. NOHVCC sent a full report to BLM. It is posted on their website. BLM respected a similar report in Idaho, we will see what Nevada says.
2. There is a proposed bill floating around in Washoe County. It's called the Washoe County Economic Development and Conservation Act. You can read about it here:  
[https://www.washoecounty.us/csd/planning\\_and\\_development/conservation-act.php](https://www.washoecounty.us/csd/planning_and_development/conservation-act.php)

In summary, this bill proposes selling off BLM land to developers for future housing development. They have proposed a "disposal boundary" where the land will be sold. This boundary includes a lot of our riding areas like Moon Rocks, Dog Skin Mountain, Chickadee, and much more. This is not a bill the public can vote on. It will be decided by our 5 county commissioners. So, if we want to keep our "Public Lands in Public Hands", please write, call, email, visit, etc. your county commissioner and tell them how you feel. Feel free to ask Julianne Zotter about this, she has done a lot of research and is actively trying to get this bill shut down. Also, remember to do some research and VOTE in the upcoming local elections!

#### **Races:**

- Lassen – 143 total riders. Chuck Faul broke his leg, only major injury. Some Saturday racers got lost. We did see some pit riding. Even someone riding a pit bike IN the pee wee race trying to follow their kid. This is not ok. We had 2 sportsman racers, both requested year MRANN cards.
- Cheaters – 145 riders + 4 teams. Need to adjust some results. Great course, good marking, challenging but fun. Some major injuries, discussed below.
- Corey Herring Memorial Club – Honeylake is good to go. We had pit riding issues last year, so there will be strict enforcement this year. Plenty of water, no dust on the MX track. Going to try to start earlier to beat the heat. There will be no team race. Sunday race will be in the order of Novice, Amateur, Expert. 4H will be at the race to cook breakfast and lunch on both Saturday and Sunday.

## **NEW BUSINESS:**

**Dry lake bed injuries:** Cheaters had two major injuries on the dry lake bed this year. This has occurred multiple times in the past on the lake bed. Perhaps we need better communication with the crashes that occur at the start. When Dane Johnson crashed on the Expert line, he was in immediate danger of getting run over by the Amateur line. And then the Novice line. Maybe we need a protocol for starts. Could do radio communication to clear each line before the next one goes. National Hare and Hound has a protocol for sweeping starts. We could adopt their plan.

**Dane Johnson Poker Run:** There will be a poker run to raise funds for Dane Johnson. His crash at Cheaters left him with a broken leg, severed artery, and a few broken vertebrae. More details on the fundraiser to follow.

**Vintage/Bomber bikes:** Per VCGP – Vintage bikes are 1974 and older, Bomber are 1975-1984. And there's an Evolution class. Does MRANN want to adopt these designations?

MRANN Family Fun Day – We used to MRANN Family Fun days in the summer, but haven't in a while. Do we want to do it again? Maybe Need for Speed?

**Meeting Adjourned at: 7:40 pm**

**Next Meeting: June 5th, Round Table Pizza on S. Virginia, 6:30pm**

**Mini Bike Referee- (Beth Legenbauer)** – Points will be updated before this weekend.

Medical Team: WSRA was a great race! There were a ton of sweeps. No major injuries. Lassen is all set for medical. We have a full load of med sweeps.

Any high school seniors applying to college or trade school, please apply. Also, any current post-high school students in college or trade schools, please apply.

Land use: Dave Zotter and Brandon Henning spoke with a Rep from NnA and the Department of Interior about inequities with cost recovery. Rick May (DOI) is an OHV guy and wants to open up trails, etc. He is looking for information.

### **Races:**

- Western States – 171 Riders. We had a broken collarbone Saturday and a broken wrist Sunday. Course was fun. Good work WSRA!
- Lassen – The course is marked. 45-50 mi Sunday course, 2 loops. It is rocky! The rain has washed away a lot dirt, exposing rocks. Mini/Women loop will be 30-35 miles, 1 loop only. There will be alt gas at 17 miles. Team race is 20 miles, no alt gas. Road to get there: through Pyramid is not advisable with trailers. There are some big dips. Fish Springs road is good and trailer friendly.

Land Use - \$27,235.14

General - \$14,808.86

**Big Bike Referee- (Ronnie Scorserelli)** – Points will be updated this weekend.

**Mini Bike Referee- (Beth Legenbauer)** – The first race brought out a ton of novice mini racers! I will redistribute classes soon to even out the competition for more trophies. Points are final and will be posted shortly. Please double check club rosters and let me know if someone in your club is not listed correctly.

**Land Use Committee/Medical Team Report: (Dave Zotter)**

Medical Team: We were busy at Trailblazers. All things considered, everything went well. We

were able to get medical attention and aid to those who needed it. Thank you, Seth, for organizing the helicopter evacuation for a down rider. Thanks for the help!

Corey Herring Memorial Scholarship: Scholarship application will be online by the middle of the month. You will have about 6-7 weeks to fill it out, then the committee will choose winners. Any high school seniors applying to college or trade school, please apply. Also, any current post-high school students in college or trade schools, please apply.

Land use:

National

- Changes to Department of Interior Reorganization- originally created 13 new regions defined by watersheds and geographic basins rather than state boundaries. Now they will follow state boundaries.
- Bureau of Economic Analysis study (2016) showed that motorized recreation was the largest activity under the Conventional Outdoor Recreation Umbrella; accounting for 459.4 billion in gross output. In response, a new organization was unveiled called the ORR Outdoor Recreation Roundtable. This is good news because it pulls together a diverse group of recreational interests under one umbrella. All working to move recreation forward on the National front.
- \$653 million in Emergency appropriations to the Forest Service and BLM to meet the shortfall in wildfire funding.

Local:

- BLM Meeting on Sage Grouse habitat management, Feb 7, wasn't very eventful. Mostly focused on Stage 1 Wildfire mitigation.
- BLM has requested feedback about the permitting process. So, if you have a specific comment or concern about your experience with permitting your race, please get in touch with Dave Zotter, who is compiling a report.

**Races:**

- Trailblazers: Saturday = 98 riders total. 23 teams, 75 kids/women. Sunday = 153 riders. There was one bad team race crash, he flew out in a helicopter. But he is home now, on the mend. One bad injury on Sunday, but he has been released as of yesterday. **Clubs be AWARE**: BLM charges \$5/rider, but our post report said \$6/rider. Be sure you are paying what you signed for on the permit and not more. Comment from Lassen: It was nice to see something new on the peewee course. Thanks Trailblazers for building a new course for the little guys!
- Western States – Ready to go! 45 mile loops. Alternate gas at 24-26miles. You may drive to alt. gas if you wish to help your rider there, but you must stay there the whole race. No back and forth. There will be a truck to take gas cans to alt. gas.

## **OLD BUSINESS:**

- Corey Herring: 6/16 and 6/17
- Golddiggers: 9/8 and 9/9
- Mason Valley: 9/22 and 9/23
- Rimbenders: 10/27 and 10/28
- Tankslappers: 11/10 and 11/11

## **NEW BUSINESS:**

**New Business 1:** Lassen M/C would like to host a Sportsman Class in their upcoming race. This would be a non-points paying class, no trophies, \$40 entry and start after the novices.

The Board would like a vote on the addition of a class, per the rulebook.

Benefits of the Sportsman class:

1. Encourages new riders to try out a race
2. Allows riders to go out on a marked course with support for a ride without racing

Problems that may occur:

1. Addition of a class without the approval of a vote by the clubs opens up the possibility for every club to run all sorts of classes without approval. Major chaos ensues.
2. \$40 entries mixed in with \$60 – non points racers could affect the outcome of points classes. Get in the way, beat competitors, mix up finish order, mix up scoring.

This will be voted on by the clubs in a separate Rules Committee Meeting, dated March 20, 2018.

**New Business 2:** Cheaters/Rimbenders combined races. See letter, below:

MRANN Board,

Thank you in advance for reviewing and considering the following topic.

Topic - Any club putting on two races in one race season.

Issue - Individuals wanting to work only one and race the other.

Suggested solution - I want to give the members of the club the option to work both races, or work one race and race the other. Anyone choosing to work one and race the other needs to have their club place in writing which one they are racing/working prior to the first MRANN race of that season. This will prevent anyone making a last minute decision for a points advantage.

Reasoning for the suggested change - My family is long time Cheaters members, a few years ago we consolidated the Cheaters and Rimbenders. Some of the kids in our club, my 15yo included, has voiced his concern recently about sitting out two races. Jesse told me he would like to work the original Cheaters race at Blue Wing Flat and race the fabulous Moonrocks race. He belongs to MRANN because he loves to race, and enjoys helping out with one race like the majority of the MRANN membership. Even though there is a fair solution in the MRANN rules to average your points for the second race you work, he prefers to only sit one and enjoy the excitement of racing all others. This is not a points issue with him, it's the watching and waiting for the banner drop and the challenge of riding a hundred miles with 200 other race enthusiasts. In short, Jesse is part of MRANN to race, not work multiple races. I, on the other hand, choose to work both races because, it really is all about the kids!!

Suggested solution for the current race season - Because I'm not quite the ball of fire I used to be, I did not present this to the MRANN board at an earlier date. If the MRANN board chooses to allow riders belonging to a club putting on multiple races to choose prior to the season starting which one they will work/race, I'm hoping for this year you can make an exception and allow us to provide the list to you prior to the WSRA race. The actual issue at hand is our primary concern for future years, secondly is to allow us to provide the list prior to the second race for this year.

My apologies for not attending the meeting tonight, I am at Jesse's first high school lacrosse game which was moved because of the snow last week. I am available now or anytime on my cell. 775-544-9209

Thank you for taking the time to consider our concerns,  
Jeremy White

Rimbenders and Cheaters will combine to put on the first (of the two) race of the year. Only Rimbenders will put on the second race Moonrocks. Cheaters will race this event. Thus all Rimbender members will have their second race averaged in per MRANN rules. Denis Belingheri will provide board with a list of ALL Rimbender and Cheaters club members ASAP.

**President-** (Dan Rankin)- Nothing new.

**Vice President-** (Chanel Egesdahl) – MRANN can now process Credit Cards for membership fees. Chanel will have the cc reader at races to process new members onsite. There is a 3% service charge. Not sure if we should charge that to the member or not. It is a convenience, but cash and check are still accepted. Chanel has processed and mailed many membership cards. If you do not receive your card before the first race, she will have it with her at the race.
